**Detailed Action**

1. Claims 5-19 are presented for examination. This office action is in response to the amendment filed on 5/5/06.
2. The information disclosure statement (IDS) submitted on 5/5/06 is being considered by the examiner
3. The terminal disclaimer filed on 5/5/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of US Patent No. 6633965 has been reviewed and is accepted. The terminal disclaimer has been recorded.

**REASONS for ALLOWANCE**

4. The following is an Examiner's statement of reasons for the indication of allowable subject matter: renumbered claims 1-15 are allowable over the prior art of record because an update of a search previously made does not detect the combined claimed elements as set forth in the claims 1-15. Claims are allowable over the prior art of record because none of the prior art of record teaches or fairly suggests a computer system comprises a CPU, a memory controller and memory devices, the memory controller comprises a plurality of data pads and strobe pads coupled to the memory devices, wherein data is read and written at each of the data pads in sync with a strobe that is received at or generated by a corresponding one of the strobe pads; for each

Art Unit: 2185

data pad, receiver circuitry comprising P storage elements, wherein in a first mode, data bits stored by the P storage elements are multiplexed to generate a single data stream, and in a second mode, data bits stored in the P storage elements are multiplexed to generate at least two data streams; and for each strobe pad, receiver circuitry comprises a counter to count received strobe edges; wherein particular counts of strobe edges received at a particular strobe pad cause data to be received by particular ones of the P storage elements associated with data pads corresponding to the particular strobe pad as described in the specification and together with combination of other claimed element as set forth in the claims. Therefore, claims 1-15 are allowable over the prior art of records.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons For Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hong Kim whose telephone number is (571) 272-4181. The examiner can normally be reached on M-F 9:00 to 6:00.
